

CAREER DEVELOPMENT CENTRE (CDC) COMMITTEE

Vision

To empower every student with the knowledge, skills, professional values, and industry exposure required to become globally competent professionals, entrepreneurs, innovators, and responsible citizens.

Mission

- To bridge the gap between academia and industry through meaningful collaborations.
- To enhance students' employability by providing continuous career guidance, skill development, internships, and placement opportunities.
- To establish strong relationships with industries, alumni, government organizations, and professional bodies.
- To promote higher education, entrepreneurship, innovation, and lifelong learning among students.

Objectives of the Career Development Centre

The Career Development Centre (CDC) serves as the central body responsible for planning, coordinating, and implementing all career development initiatives across the University. The committee strives to prepare students for successful careers through structured training, industry engagement, internships, placements, entrepreneurship support, and professional development.

The major objectives are:

- Improve graduate employability.
- Strengthen university-industry collaboration.
- Facilitate internships and campus recruitment.
- Organize career guidance and counselling programmes.
- Develop communication, aptitude, technical, and soft skills.
- Promote entrepreneurship and innovation.
- Support students aspiring for higher education and competitive examinations.
- Build a strong alumni-industry network.
- Enhance placement quality and career outcomes.
